is such a great aid is because is such a great aid is because it passes so quickly into the blood. It is partly digested before it enters the stomach; a double advantage in this. Less work for the stomach; quicker and more direct benefits. To get the greatest amount of good with the least possible effort is the desire of everyone in poor health. Scott's Emulsion does just that. A change for the better takes place even before you expect it.

Overcoats

With Character

Overcoats, like men, have character.
Some, after they've gone out into the world awhile, look out at the elbows.

Some deceive by their appearance, and prove false to their trust. Some look jaunty, but won't wear.

I we couldn't bond our Overcoats for character with the guarantee of "money back if you want it," there would be nothing remarkable about our coats.

We have absolute confidence in our overcoats, and so we bond them.

\$7.50 buys Blue or Black Beaver, also Grey Cheviot, with velvet collar and good linings.

To-morrow our full force will be on hand all day and evening to help you in choosing your left-till-the-last gifts. At 10.30 pm. the store closes and our many employees take their well earned holiday. Never has a Christmas season closed so brightly for us or so much to the satisfaction of our customers as has this of 1904.

The rapid growth of our year's business has climaxed in a holiday season surpassing our highest expectations.

Of course our immense Christmas trade is in part a reflection of the general prosperity, but above and beyond that it, is a proof that the possibilities and usefulness of our store are becoming better understood—that people realize more and more how truly metropolitan are our stocks—how efficient is our service.

No small part of the credit for the success of our Christmas business is due to our ever-growing army of employees, who have worked most faithfully to serve you. Our thanks are due both to them and to you for the remarkable smoothness with which such a great-volume of business has been done. Increased efficiency on their part and increased confidence on yours are very evident and gratifying features of the situation.

You would almost think that with such enormous selling shelves and counters must be nearly bare. Not a bit of it. There's a stream of goods constantly coming in to replace those going out, and Tuesday will find us ready to meet your simplest need or your most extravagent demand as promptly as though Christmas had never been.

The interest of the store will not elacken but grow with the coming of the New Year.
